

HOWARD STREET

Howard St. -- Statement of Significance

Howard St. may have been laid as early as the 1840's. Many new streets went up in the south end in that decade, and Howard could well have been one of them. The 1853 map does not extend far enough south to show whether Howard was there or not; if it was not built in the 1840's, it was probably put through in the early 1860's. The Greek Revival house at 190 Howard was probably built in the early years of that decade, although the charred innards of the structure suggest that an earlier house could have stood on this site. If this was the case, then the street, of course, dates earlier as well. At any rate, by 1890, the only other development on Howard St. was a cluster of houses built for lumber industry workers below St. Paul, a section of Howard that is not included in this survey. All but a few of the houses above St. Paul were built after the turn of the century. Howard is almost too far out in the south end to have been developed much before the advent of trolleys (late 1880's) or the automobile (1920's). Comfortable middle-class homes have gone up steadily in the years since then.

Other than the ca. 1860 house at 190 Howard, two other structures are of some interest historically. The converted barn at 156 Howard was an outbuilding for #455 S. Union St., and was probably built in the 1860's. The building at 202 Howard was apparently a factory for Lord and Johnson, manufacturers of patent medicine.

Door - paneled with fanlight motif. Surround has stucco blocks set in the brick to resemble quoining.

Enrichments - wood strips set in stucco in gable section of the entranceway.

RELATED STRUCTURES: (Describe)

STATEMENT OF SIGNIFICANCE:

This house in the fanciful, Tudor style was part of an architectural counter trend away from the ordered Colonial Revival styles.

ADDITIONAL ARCHITECTURAL OR STRUCTURAL DESCRIPTION:

Massing - rectangular block, front gable orientation, extended at the SW corner and the last bay by polygonal bays which terminate in pedimented gables.

Penetration - double hung sashes with upper sash divided vertically into sections. Molded heads - triple and paired windows side elevations.

Door - 2 entrances into interior, plain surrounds.

Enrichments - shingled upper floors, Gablet above entrance to porch.

RELATED STRUCTURES: (Describe)

2 car garage, shiplap sided, front gable orientation.

STATEMENT OF SIGNIFICANCE:

A common Colonial Revival house-type, still utilizing the irregular massing of earlier styles, this was the residence of Everett Soule, assistant treasurer and manager of the C. C. Soule Co., wholesale tobacconists.

ADDITIONAL ARCHITECTURAL OR STRUCTURAL DESCRIPTION:

Massing - rectangular block with front gable orientation extending from the main block is a smaller front gabled block which has a polygonal bay on the 1st floor. The plan is thus an L. A polygonal porch wraps around the SW corner of both sections.

Fenestration - double hung sashes, upper sashes divided into 4 vertical sections. Paired windows, triple windows with center transom. Large front window with divided transom. Matching storm windows. Triple stained glass window & elevation. Molded window heads.

Door - molded head.

Enrichments - upper floors shingled l porch also shingled. Gablet above entrance to porch.

RELATED STRUCTURES: (Describe)

Clapboard & shingled, 1-car garage.

STATEMENT OF SIGNIFICANCE:

Built at the same time and by the same builder. This house retains much more of its original detailing including the fine stained glass window on the east elevation. Home of William Tracy.

LOCAL ATTITUDES:

Positive Negative Mixed Other:

ADDITIONAL ARCHITECTURAL OR STRUCTURAL DESCRIPTION:

Massing - front gable orientation, rectangular block with shed roofed ell and rear wing and shed. Ell has rockfaced concrete block foundation. Front porch which continues around the side.

Fenestration - hew 6 over 6 sashes main block. Ell and east elevation have had casement windows with a divided transom added.

Door - Greek Revival style with pilasters supporting a full entablature.

Enrichments - some imbricated roof slates.

RELATED STRUCTURES: (Describe)

Clapboard garage.

STATEMENT OF SIGNIFICANCE:

The first appearance of this house on maps seems to be on the Beers 1869 Atlas map. This date would coincide with the Greek Revival style of the door. However, structural evidence of charred, hand hewn beams lend credibility, to the theory that this is an earlier house, possibly renovated to the Greek Revival style after a fire. Although the interior has been modernized brick hogging has been retained and exposed.

ADDITIONAL ARCHITECTURAL OR STRUCTURAL DESCRIPTION:

Massing - front gable orientation. Rectangular block with roof which overhangs on east elevation and incorporates a side porch which continues around the rear. Wall dormer west elevation which is hip roofed. Main roof has 2 slopes like a gambrel on one side and a slightly belcast eave on the other side. A small belcast roof projects from the front elevation to cover the front entrance porch. Shed roofed window recessed into the roof to form a dormer.
Fenestration - 6 over 1 and 8 over 1 sashes. Small 8 paned rectangular window.
Cornice - dormer cornice has exposed rafter ends.
Enrichments - shingled step ends.

RELATED STRUCTURES: (Describe)

Shingled, 2-car garage with exposed rafter tails.

STATEMENT OF SIGNIFICANCE:

Almost identical to the house next door and similar to 2 houses on Beach St. and one on the corner of Beach and south Willard. These house stand out from the typical Colonial Revival house of the period. Part of a development plan by Frederick Gay and James B. Henderson. They depart from the symmetrical, regularity of that style.
